

Rosa WOMEN'S HEALTH ROAD

NEW MOBILE
MAMMOGRAPHY
UNIT

Rosa WOMEN'S
HEALTH ROAD

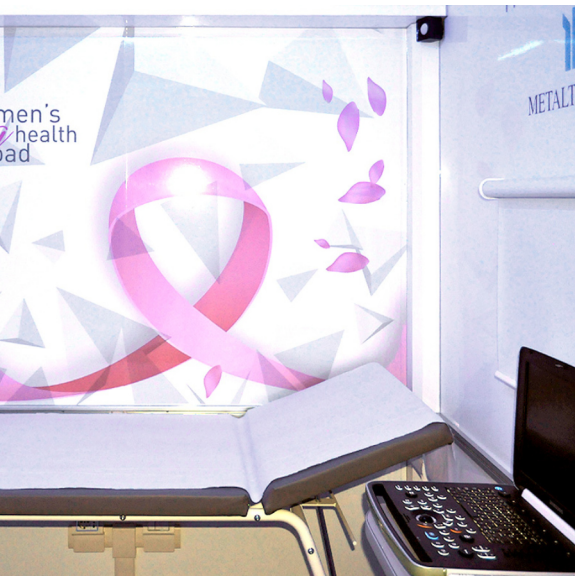

FIRST IN CLASS INNOVATIVE
MOBILE MAMMOGRAPHY CLINIC
FOR ALL BREAST SCREENING
PROGRAMS

An all-in-one solution, now available in
your neighborhood.

- 3D MAMMOGRAPHY BREAST
- ULTRASOUND TESTING
- INSTANT REPORTING

We believe life-saving early detection
services should be available to every
woman, everywhere.

PREVENTION IS EVERYWHERE

SMALL VAN

With all comforts and state of the art medical systems for women's health screening that reaches all locations where breast cancer prevention is less accessible.

DBT EQUIPPED

ROSA Van is built with eco-sustainable materials certified for medical use and equipped with the HELIANTHUS DBT tomosynthesis system.

B DRIVE LICENSE

You can drive the van with a B license. You can even involve only 1 driver who can be the x-ray technician himself.

COST SAVINGS

Fuel economy (8 liters/100 km), low maintenance, extremely compact dimensions, minimum staffing level (1 driver/x-ray technician).

METALTRONICA AND CVS, A SUCCESSFUL PARTNERSHIP

INNOVATIVE MOBILE MAMMOGRAPHY IS POSSIBLE.

The Rosa mobile unit was developed to make breast cancer prevention increasingly accessible and affordable for all women.

The project is the result of a collaboration between CVS, a leader in the design and production of customized special vehicles, and Metaltronica, a market leader in the field of innovative diagnostic breast imaging solutions.

METALTRONICA

For a brighter future.
